Percentage Of Fibre Melting Peak Remaining After 10 Minutes At Temperature For Tenfor

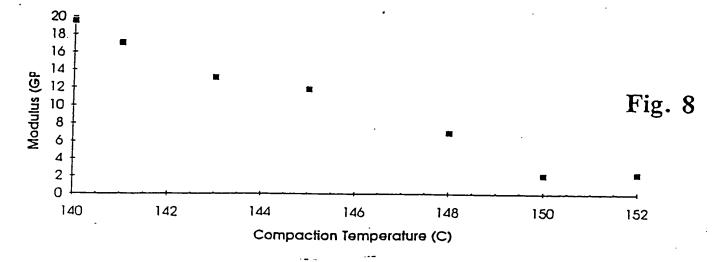

Percentage Of Fibre Melting Peak Remaining After 10 Minutes At Temperature For Certran

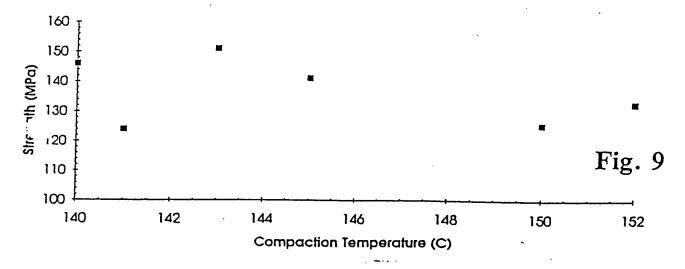

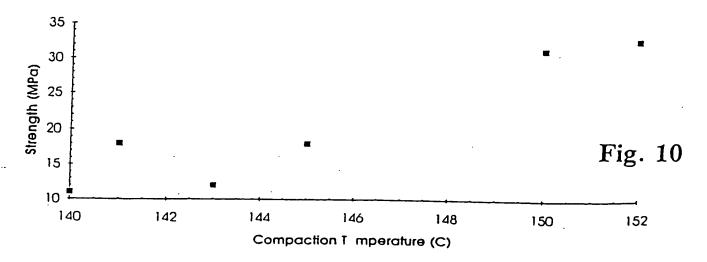

3/7
Modulus Of Irradiated Tenfor Plaques Compacted At Varying
Temperatures

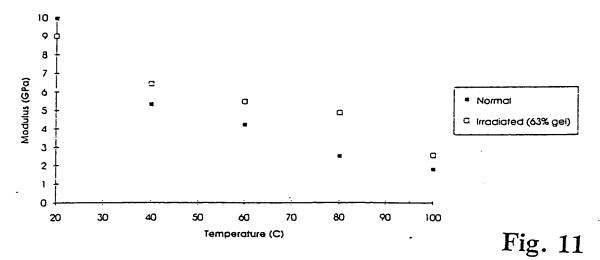

Longitudinal Strength For Irradiated Tenfor Plaques Compacted At Varying Temperatures

Transverse Strength For Irradiated Tenfor Plaques Compacted
_At Varying Temperatures

Tensile Modulus For Hot Compacted Certran

Strength For Normal And Cross Linked Certran

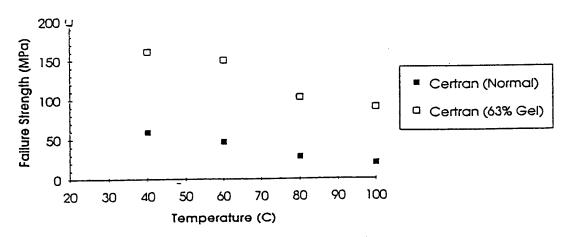

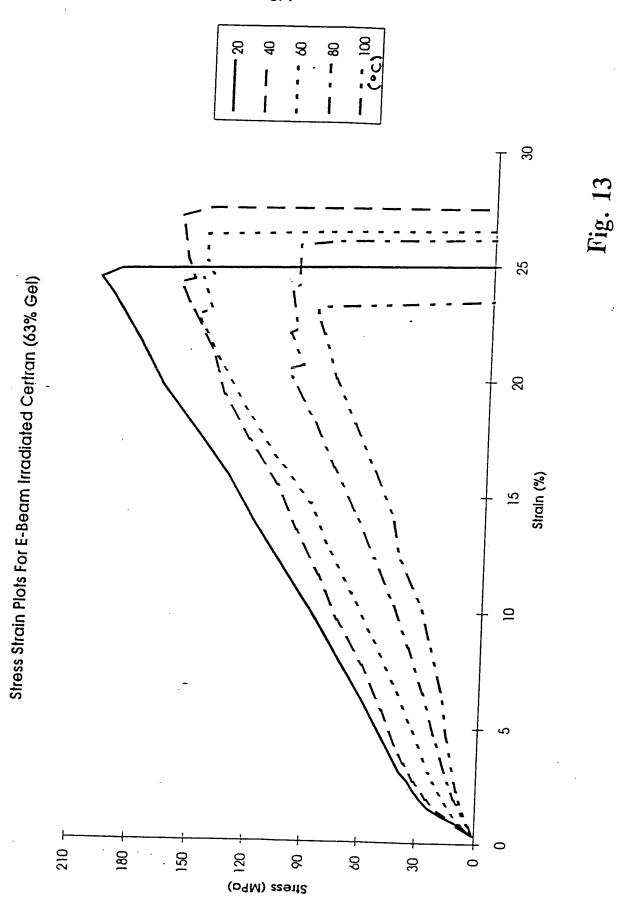

Fig. 12

Stress Strain Curves For Hot Compacted Certran Drawn At 20% /min At Different Temperatures
